

PRESCRIPTIVE IRRIGATION APPLICATION

Applications will only be processed if fully completed and signed. Once completed, please return to your electric utility provider. Questions? Contact Kelly Beiermann at klbeier@nppd.com (402-563-5415) or Cory Fuehrer at crfuehr@nppd.com (402-362-7390).

\$500 incentive for replacing all outlet components on an all-electric center pivot or linear tower system (sprinkler heads, sprayers, rotators, plates, pads and nozzles, and regulators)

CUSTOMER NAME: _____ Electric Utility: _____

Mailing Address (City, State, Zip): _____

Account #: _____ Date: _____

SYSTEM LOCATION: (Legal description)

Township: _____ Range: _____ Section: _____ Subsection _____

SYSTEM DESCRIPTION:

Operating pressure (at wellhead): _____ psi

Number of Sections: _____ (minimum of four (4) sections required)

Number of Outlets: _____ (sprinklers, heads, sprayers not including end gun)

Pivot or Linear System Age: _____ years

Years since outlets replaced: _____ years (enter n/a if never replaced)

COPY OF EXISTING SPRINKLER PACKAGE REPORT ATTACHED

(Note: Incentive will not be processed unless report identifying existing sprinklers, heads, sprayers is attached)

COPY OF PROOF-OF-PURCHASE ATTACHED

(See Terms and Conditions for documentation requirements)

COMPLETED W-9 FORM ATTACHED (check box)

Owner: _____
Print Name Signature Date

TERMS & CONDITIONS

PROOF OF PURCHASE: **Sales receipt(s) or invoice(s)** itemizing the new components and indicating the quantity, make, model, purchase date, and vendor must accompany each incentive application.

INCENTIVE OFFER: This energy efficiency incentive program covers components during the program year in which it is purchased and installed. Details of this program, including incentive levels, are subject to change without notice. The electric utility reserves the right to limit incentives.

ELIGIBLE EQUIPMENT: Components must be new, permanently installed and operational before submitting applications. To qualify, center pivot or linear tower system must be four (4) sections in length or longer and water supplied by an all-electric pumping system.

The majority of the system's existing nozzles, sprayers or sprinkler heads must be at least five (5) years old. For verification, a copy of the pivot's most-recent sprinkler/nozzle report must be provided with a completed application and qualifying proof-of-purchase documentation. If a sprinkler/nozzle report is not available, a written statement from the irrigation equipment vendor stating the system has not been upgraded for at least five (5) years must be provided.

When replacing outlet components, qualifying systems are only eligible for the EnergyWiseSM Prescriptive Irrigation program once every five (5) years.

All applicable outlet distribution components identified on the sprinkler/nozzle report or chart (including sprinkler heads, sprayers, distribution plates, pads, rotators, nozzles, and regulators, if identified on the report/chart) must be replaced with new, permanently installed and operational components before submitting applications.

ISSUING INCENTIVES: Components must be purchased and installed before an energy efficiency incentive is issued. Falsifying any information may lead to cancellation of this and future incentive applications, a claim by the electric utility for the return of any incentive, and/or referral for prosecution. Please allow 45 days for delivery of incentives. Submitting an application with incomplete or missing information may delay processing of the incentive.

APPROVAL & VERIFICATION: The electric utility reserves the right to verify sales transactions and inspect all sprinkler package installation projects prior to and after installation.

TAX LIABILITY: Neither the electric utility nor Nebraska Public Power District are responsible for any tax liability imposed on the customer as a result of the energy efficiency incentive.

ENDORSEMENT: Neither the electric utility nor Nebraska Public Power District endorse any particular manufacturers, products, or system designs in promoting this program. Equivalent products must be pre-approved by the electric utility and Nebraska Public Power District.

DISPOSAL: The customer/contractor is responsible for the proper disposal and/or recycling of any waste generated as a result of this project.

SAFETY & ELECTRICAL CODES: The customer/contractor agrees that each measure complies with all federal, state, and local safety, electrical, and environmental codes. All products must be installed per manufacturer's instructions.

DISCLAIMER OF WARRANTIES: Neither the electric utility nor Nebraska Public Power District warrant the performance of any equipment or components either expressly or implicitly. Contact the supplier or contractor for details regarding equipment warranties.

ENERGY BENEFITS: The Utility is entitled to 100% of the energy benefits associated with the implemented Energy Conservation Measure, excluding the value of energy cost savings realized by the Customer, but including all rights to all associated energy, capacity, reserves, and emissions. The Customer agrees to provide the Utility with such further documentation as the Utility may request to confirm the Utility's ownership of such benefits.
